

TECHNICAL REPORTS FY 2025-26

Sr. No.	Title	Report No.
1	Wave tranquility studies on upgraded comprehensive physical model of Chennai port	6384
2	Hydraulic model studies for river training and bank protection works in the vicinity of Narmada Main Canal and Banas river crossing, Totana village, Gujarat	6385
3	Measurement of discharges at various locations of Express canal in Ekrukhlis, Tal. North Solapur, Dist. Solapur, Maharashtra	6386
4	Mathematical model studies for surge analysis of Dhangarwadi Lift Irrigation Schemes Stage II (North and South) Tal. Karad, Satara District, Maharashtra	6387
5	Dam break analysis and providing inputs for emergency action plan for Shivnagudem balancing reservoir, Telangana	6388
6	Additional hydraulic model studies for modified design and spillway with stilling basin as energy dissipater of Punatsanchhu-I H. E. project, Bhutan 1:70 G. S. 3D comprehensive model	6389
7	Studies for diversion of nala passing through proposed integrated steel plant(ISP) at Nimdih, Saraikela, Jharkhand	6390
8	Computational fluid dynamics(CFD) analysis of downstream search gallery arrangements for water conductor system of Dulhasti Hydro-electric project (260 MW) stage-II, J&K	6391
9	Selection of suitable sites and framing of technical specifications for setting up of Telemetry system in Cauvery Basin- Phase-I for Cauvery Water Regulation Committee (CWRC), Bengaluru	6392
10	Desk studies for the strengthening of existing seawall between Lotus Jetty to Chhota Haji Ali/Baroda Palace, Mumbai	6393
11	Physical and numerical studies for the second revision of Modified Alternative-III design of the tunnel spillway of Pakal Dul H. E. project, J&K, 1:25 scale, 3D comprehensive model	6394
12	Dam break analysis and providing inputs for emergency action plan for Kistarampally balancing reservoir for SRVR DLIP, Nalgonda District, Telangana	6395
13	Hydraulic model studies for reservoir sedimentation of Kwar H. E. project, Kishtwar, J&K.	6396
14	Physical model studies for reservoir sedimentation for Pakal Dul H. E. project, J&K.	6397
15	On-Site Calibration of Flowmeters at Ajmer, Rajasthan for M/s NS Instruments and Controls, New Delhi	6398
16	Desk studies for the design of coastal protection measure for fisherman colony near Shivshastri Nagar at cuff parade, Colaba, Mumbai, Maharashtra.	6399
17	Parallel seismic at upstream and downstream secant piles of Sundilla barrage of Kaleshwaram Lift Irrigation Scheme (KLIS), Telangana	6400

18	Mathematical model studies for wave tranquility and shoreline changes for Gopalpur alternate fishing harbor at Arjipalli, Odisha	6401
19	Mathematical model studies for hydrodynamics and optimization of dredged disposal location for proposed port at Machillipatnam, Krishna District, Andhra Pradesh.	6402
20	Geotechnical studies for suggesting seepage mitigation and stability measures for Kalwande earthen dam, Dist. Ratnagiri, Maharashtra	6403
21	Site inspection of earthen dams of Relampadu and Muchonipally balancing reservoirs, Telangana	6404
22	Site calibration of flowmeters of Ammunition Factory, Khadki, Pune	6405
23	Site inspection report for assessing requirement of right guide bund for proposed construction of high level RCC bridge across river Kosi between Kachurdeva chowk and Dengrahi ghat in district Saharda, Bihar	6406
24	Mathematical model studies for alignment of ROPAX jetty and siltation in the proposed navigational channel for passenger water transport terminal at Nerul, Navi Mumbai for Mumbai port	6407
25	Hydraulic 3D comprehensive model studies for spillway & power intake of Ratle Hydroelectric Project, J&K	6408
26	Physical model studies for studying wave tranquility aspects inside harbour basin for development of eastern breakwater and jetty at Porbandar, Gujarat	6409
27	Vibration Studies for Bhira, Hydroelectric Project, Raigad, Maharashtra	6410
28	Desk studies for the design of coastal protection work at villages Umarasadi Macchivaad and Kolak, Tal. Pardi, Dist. Valsad, Gujarat	6411
29	Desk studies for design of coastal protection works at Haji Ali Dargah, Worli and Geetanagar, Mumbai	6412
30	Physical model studies for proposed barrage across river Tapi in Rundh-Bhatra, Surat, Gujarat	6413
31	Sedimentation study for river Umeiw, Meghalaya	6414
32	Hydraulic 3D comprehensive model studies for assessment of scour downstream of spillway of Kiru H. E. project, Jammu & Kashmir	6415
33	Desk studies for hydrological re-assessment of the new railway line between Indore Budni, MP for Rail Vikas Nigam Ltd. Bhopal	6416
34	Geotechnical studies for suggesting seepage mitigation and stability measures for Telewadi Earthen dam, dist. Ratnagiri, Maharashtra	6417
35	Geophysical investigation for delineation of distressed zones in Kalwande dam, Maharashtra	6418
36	Numerical Studies on Raw Water Pump House at Iron Ore Benefication Plant for NMDC Bachel Chattisgarh through Kalpataru Projects International Ltd.	6419
37	Determination of In-situ permeability for recommending seepage mitigation measures through foundation of Kadaknathwadi storage tank district Dharashiv, Maharashtra	6420

38	Mathematical model studies to assess the hydraulic design parameters for the construction of flood protection wall in river Tapi, Surat, Gujarat	6421
39	Desk Studies for the design of coastal protection work at Dabhari beach, Talolpad, district, Surat, Gujarat	6422
40	Geotechnical Seepage and stability studies for Nive Dam Taluka Sangameshwar Ratnagiri, Maharashtra	6423
41	Mathematical model studies to route flood through the bridge below the proposed expansion of Kangra airport runway across river Manjhi/Sarah Khad and to evolve suitable river training works for Manjhi/Sarah Khad in Shahpur, dist. Kangra, Himachal Pradesh.	6424
42	Geophysical investigations for delineation of distressed zones in Tangar Dam, Maharashtra	6425
43	Bathymetry Survey of the plunge pool area and extraction of profiles of the plunge pool bottom of Srisailam Dam, A. P.	6426
44	Desk Studies for the design of coastal protection work at Band stand, Bandra, Mumbai	6427
45	Geophysical investigations for delineation of distressed zones in Nive Dam, Maharashtra	6428
46	Desk and Wave flume studies for the design cross section of breakwater extension of western breakwater (250m) for the development of fishing harbor at Vizhingam, Kerala	6429
47	Mathematical model studies for evolving flood protection measures along river Poonch from Shahi Khul Surankote to Sher-e-Kashmir bridge, District Poonch, J&K	6430
48	Laboratory studies towards cementitious grout material mix design for controlling seepage through Tillari dam, Kolhapur, Maharashtra	6431
49	Field efficiency test of one turbine unit of Koyna stage-II for Flovel Energy Private Limited, Faridabad	6432
50	Bathymetric Survey at Baglihar Reservoir, Jammu and Kashmir	6433
51	Estimation of shear wave velocity (V_{s30}) at mat Sewaki HEP, Mizoram	6434
52	Geophysical investigations for delineation of distressed zones in Sakharpa Dam, Maharashtra	6435
53	Estimation of safe charge weight per delay by conducting trial blast field investigations for excavation of hard rock during construction of power house by blasting operations at Bivpuri HEP, Maharashtra	6436
54	Geotechnical stability of river bank erosion protection structure of ONGC pipeline in Godavari River, AP	6437
55	Mathematical/Numerical model studies to develop sedimentation profiles for various periods and reservoir operating conditions	6438
56	Mathematical model studies for wave transformation and shoreline changes for Karaikal Port, Puducherry	6439

57	Mathematical model studies for hydrodynamics and sedimentation for Karaikal Port, Puducherry	6440
58	Mathematical model studies to assess hydrodynamics and sedimentation, wave tranquility and effect of wave disturbance on the proposed docks/berths during ship navigation in the channel for proposed master plan 2047 for the Paradip port, Odisha	6441
59	Desk Studies for the design of coastal protection works in village Saiyad Rajpara, Taluka Una, District Gir Somnath, Gujarat	6442
60	Mathematical model studies for assessment of nearshore climate and shoreline changes at Vasco Bay, Mormugao Port Goa	6443
61	Assessment of in-situ quality of concrete of conduit and distribution chamber by NDT methods for Berdewadi dam, Ratnagiri, Maharashtra	6444
62	Qualitative Assessment of weir and sluice structures by NDT method for Tangar dam, Ratnagiri, Maharashtra	6445
63	Mathematical model studies for tidal hydrodynamics & siltation for the development of proposed reclamation & LNG berth at Jawahar Dweep in Mumbai Harbour	6446
64	Mathematical model studies for hydrodynamics and sedimentation for development of Fishing Harbour, Passenger Jetty, Coastal Cargo Berth and Berths for Indian Navy and Indian Coast Guard at Vasco Bay	6447
65	Analysis and Interpretation of Instrumentation Data of Power House for the period Jan 2023 to Dec 2024 Indira Sagar H. E. Project, M. P	6448
66	Mathematical model studies for hydrodynamics and sedimentation for bank erosion protection measures for ONGC pipeline in Godavari River, Near Kakinada, Andhra Pradesh	6449
67	Mathematical model studies for wave hindcasting and storm surge analysis for proposed modernization and expansion of port infrastructure at Vasco Bay, Mormugao Port, Goa	6450
68	Mathematical model studies for wave tranquility for proposed development of international container transshipment port at Galathea Bay, Great Nicobar	6451
69	Estimation of safe charge weight per delay by conducting trial blast field investigations for excavation of hard rock intake site of Khand, Bivpuri HEP, Maharashtra	6452
70	Mathematical model studies for hydrodynamics & siltation for development of International container transshipment port at Galathea Bay, A&N Islands	6453
71	Onsite efficiency test of 6 number of screw turbine plants in Vadodara branch canal of SSNL, Gujarat through M/s Jash engineering ltd. Indore	6454
72	Mathematical model studies to assess wave tranquility for proposed modernization and expansion of port infrastructure at Vasco Bay Mormugao Port, Goa	6455
73	Physical model studies for construction of dry dock facility at naval base Kochi, Cochin	6456

74	Laboratory studies for determination of strength and elastic properties on extracted cylindrical concrete core samples from distressed blocks of Sapan Medium Project, Amravati, Maharashtra	6457
75	Strain measurement in penstock during In-situ hydro test under static and running conditions for Bhira Hydroelectric Project, Raigad, Maharashtra	6458
76	Hydrological re-assessment for new railway line section between Murkongselek (Assam) and Pasighat (Arunachal Pradesh) for Northeast Frontier Railway, Guwahati	6459
77	Desk and wave flume studies for the design of breakwater sections for the revised layout of fishing harbor at Arjipalli (Gopalpur), Ganjam District, Odisha	6460
78	Root cause analysis of premature damage of the turbine runner blade, suggest the remedial measures and efficiency evaluation of Dudhganga Hydropower Station, Dist. Kolhapur, Maharashtra	6461
79	Mathematical model studies of natural drains crossing the alignment of new railway line between Indore and Budhani in Madhya Pradesh for Rail Vikas Nigam Limited (RVNL), Bhopal	6462
80	Geophysical investigation for delineation of distressed zones in Khopad dam, Maharashtra	6463
81	Geophysical investigation for delineation of distressed zones in Telewadi dam, Maharashtra	6464
82	Revival of dam instrumentation of Madhuban dam, Daman Ganga project, Gujarat: Twin Tube Piezometers	6465
83	Site inspection of earthen dam of Wagh Minor Irrigation Project, District Palghar, Maharashtra	6466
84	Desk and mathematical model studies for hydraulic re-assessment of new railway line section between Murkongselek, Assam and Pasighat, Arunachal Pradesh for Northeast Frontier Railway	6467
85	Site visit for identifying the scope of hydraulic model studies for spillway and energy dissipater of Lower Mullamari dam, Kalaburagi, Karnataka	6468
86	Numerical studies on trailing dam pump house at iron ore beneficial plant for MDC, Bachel, Chhattisgarh through Kalpataru Projects International Limited	6469
87	Site visit inspection report for checking out the feasibility of conducting NDT/Geo-Physical studies pertaining to Structural Health Assessment of Lower Mullamari Dam, Karnataka	6470
88	Mathematical model studies to assess operational wave conditions for the development of proposed LNG facility at JawaharDweep in Mumbai Harbour	6471
89	Desk studies for the design of coastal protection works at Pingaleswar Mahadev temple near village Khared of Tal. Mahuva, Dist- Bhavnagar, Gujarat	6472

90	Mathematical model studies for Wave Hindcasting and Storm Surge analysis for proposed development of International Container Transshipment Port at Galathea Bay Great Nicobar Island	6473
91	Analysis and Interpretation of dam instrumentation data for the period January 2023 to December 2024, Indira Sagar Dam, M.P.	6474
92	Mathematical model studies for hydrodynamics and sedimentation to assess and mitigate the sedimentation in Ship-lift pit area, Goa Shipyard Limited, Goa	6475
93	Site visit for inspection, testing and health assessment of spillway gates, cranes and stop log elements & other hydro mechanical components of Narayanpur dam, Karnataka	6476
94	Hydraulic 2D model studies for modified spillway of Ratle H.E. Project, Jammu & Kashmir	6477
95	Desk studies for the design of coastal protection works for the erosion site at Sutrapada village, near Sutrapada fishery harbor, TalukaSutrapada, District GirSomanth, Gujarat.	6478
96	Numerical model study for feasibility of successfulness of proposed pump house on the right bank of the Ganga river at Jamania in Gazipur District of Uttar Pradesh.	6479
97	Field data collection and mathematical model studies for hydrodynamics and sedimentation for the proposed development at Tambaldeg, Sindhudurg, Maharashtra.	6480
98	Physical hydraulic model studies to assess the tidal hydrodynamics conditions for alignment of proposed LNG berth and the shape of reclamation at JawaharDweep in Mumbai harbour	6481
99	Mathematical model studies for proposed refurbishment of oil berth (berth no 09) to handle the vessels upto 200000 DWT at New Mangalore port, Mangalore, Karnataka	6482
100	Desk studies for the design of coastal protection works at Aksa beach, Madh, Mumbai	6483
101	Physical hydraulic model studies for the development of RO-RO jetty at Mora, Mumbai for Maharashtra Maritime Board	6484
102	Mathematical model studies for wave tranquility and shoreline changes for the development of fishing harbor at Kulai, Karnataka	6485
103	Estimation of safe charge weight per delay by conducting trial blast field investigations for excavation of hard rock during construction of Lower reservoir at Bhivpuri HEP, Maharashtra	6486
104	Geotechnical investigations in soil strata for Sundilla barrage of Kaleshwaram project, Telangana	6487
105	Evaluation of physical and mechanical properties of rock samples for Sundilla barrage of Kaleshwram project, Telangana	6488
106	Estimation of site specific design parameters for Mat Sekawi H. E. project, Mizoram	6489
107	Estimation of average shear wave velocity (Vs30) at Tuichang Hydroelectric project, Mizoram	6490

108	Desk studies for the design of coastal protection works at Devbag and Talashil, Tal. Malvan, Dist. Sindhudurg, Maharashtra	6491
109	Estimation of site specific seismic design parameters for Tuichang hydroelectric project, Mizoram	6492
110	Desk studies for the design of coastal protection works near Gayatri temple and lighthouse to air force station Dwarka, DevbhumiDwarka, Gujarat	6493
111	Computational fluid dynamics (CFD) analysis of upstream surge gallery arrangements for water conductor system of Kirthai-II (820 MW) hydroelectric project, J&K	6494
112	Desk and wave flume studies for the design of groynes at Tambaldeg, Taluka. Devgad, Dist. Sindhudurg, Maharashtra	6495
113	Geotechnical seepage and stability for Sakharpa dam, Tal. Sangameshwar, Dist. Ratnagiri, Maharashtra	6496
114	Hydraulic model studies for the existing Arrah-Chapra bridge across river Ganga, Bihar	6497
115	Qualitative assessment by NDT of foundation structures using ultrasonic pulse velocity methods at Ennore SEZ super thermal power project, Thiruvallur, Chennai, Tamilnadu	6498
116	3D stress analysis by FEM of penstock No. 01 bifurcation for Sunni dam HEP, Himachal Pradesh	6499
117	Field studies for discharge measurement for verification of live flow data measuring system in the Tungabhadra Canal System at 25 locations, Tungabhadra project, Karanataka	6500
118	Mathematical model studies for evolving flood protection measures along river Beas and its tributaries in Tehsil Jaisinghpur and Sajanpur, Dist. Kangra and Hamirpur, Himachal Pradesh	6501
119	Desk and mathematical model studies for flood protection works of Manuni and ChuranKhads in Tehsil Dharamshala, Dist. Kangra, Hmachal Pradesh	6502
120	Analysis and interpretation of dam instrumentation data for the period January 2023 to December 2024 for spillway block 4, Polavaram project, Andhra Pradesh	6503
121	Studies for diversion of ChatkariJore and TisraJore at Lodna Area, Dhanbad, Jharkhand	6504
122	Geophysical investigations for delineation of distressed zones in Bholawali dam, Maharashtra	6505
123	Geophysical investigations for delineation of distressed zones in Awashi dam, Maharashtra	6506
124	Geophysical investigations for delineation of distressed zones in Kondivali dam, Maharashtra	6507
125	Head loss tests/measurement in the water conductor system of Rangit Power Station, South Sikkim	6508
126	Mathematical model studies for Shankarraoji Chavan Vishnupuri project Lift Irrigation Scheme, Asarjan Taluka, Nanded District, Maharashtra	6509

127	Mathematical model studies to assess the sedimentation effect of Vyasi reservoir on the tailwater of Lakhwar dam, Uttarakhand	6510
128	Field efficacy test of one turbine unit of Koyna Stage-II for Flovel Energy Private Limited, Faridabad	6511
129	Geotechnical seepage and stability studies for Awashi earthen dam, Tal Dapoli, Dist. Ratnagiri, Maharashtra	6512
130	Estimation of site specific seismic design parameters for Upper Bhavani pumped storage project, Tamilnadu	6513
131	Site inspection visit of checking out the feasibility of conducting various studies towards risk assessment of Kinnerasani project dam, Palvancha, Telangana	6514
132	In-situ calibration of SWF in main right bank canal using ADCP of Jayakwadi dam, Maharashtra	6515
133	3D stress analysis of unsymmetrical bifurcation of penstock no. 03 using Finite Element method, Sunni dam HE project, Himachal Pradesh	6516
134	Determination of in-situ permeability for recommending seepage mitigation measures through foundation of Lower Dyanganga dam, Dist. Buldhana, Maharashtra	6517
135	Mathematical model studies for determining an alternate optimal location for dredged disposal for the Angre port at Ratnagiri, Maharashtra	6518
136	Desk studies for design of coastal protection works at Girgaon chowpatty, Mumbai, Maharashtra	6519
137	Mathematical model studies for shoreline changes along the Palghar coastline in Maharashtra	6520
138	Geotechnical seepage and stability studies for Panhale earthen dam, Tal. Lanja, Dist. Ratnagiri, Maharashtra	6521
139	Desk studies for the design of bank protection work for the ONGC pipeline in Godavari river, Andhra Pradesh	6522
140	Mathematical model studies for hydrodynamics and siltation for outer harbor work of project Varsha	6523
141	Up gradation of PC based Automatic Tide Generation System(ATG) system for Hydraulic model at Syama Prasad Mookerji Port, Kolkata	6524
142	Desk studies for the design of coastal protection works along NMPA coast south of ICG campus at Panambur, Mangalore, Karnataka	6525
143	Additional mathematical model studies for evolving flood protection measures along Satluj river for the reach 2.4 km near Titang in Tehsil Pooh, District Kinnaur, Himachal Pradesh	6526
144	Mathematical model study to assess siltation and oil spill dispersion for Berth no 09 of New Mangalore port. Karnataka	6527
145	Estimation of average shear wave velocity (V_{s30}) at Satyar Khad Medium Irrigation Project, Himachal Pradesh	6528
146	Desk studies for design of coastal protection works at various sites in Palghar District, Maharashtra	6529

147	Qualitative assessment of concrete Trunnion beams by using NDT methods for Baglihar dam,Chanderkote, Ranban, J&K	6530
148	Hydraulic 2D model studies for right main canal head regulator of Polavaram irrigation project, Andhra Pradesh	6531
149	Laboratory studies towards cementitious grout material mix design for controlling seepage through the body of Mahi dam, Dhar, Madhya Pradesh	6532
150	Mathematical model studies for flood routing of Nag river in Nagpur,Maharashtra	6533
151	Area drainage studies for the box-5 of NTPC rail bridge(Laxman Nallah) at Kuchena railway sliding	6534
152	Desk studies for the design of coastal protection works at coast guard, District HQ no 03, Panambur, Manglore, Karnataka	6535
153	Desk and wave flume studies for the design of breakwater for proposed development fisheries harbour at Versova, Andheri, Mumbai, Maharashtra	6536
154	Mathematical model studies for wave transformation and assessment of wave tranquility for proposed development of all weather multi purpose greenfield deep- water port at Murbe, Maharashtra	6537
155	Mathematical model studies for estimation of extreme water level for development of proposed all weather multi-purpose greenfield deep water port at Murbe, Maharashtra	6538
156	Mathematical model studies for tidal hydrodynamics and siltation to assess suitability of the proposed shelter location for berthing of the port vessels at JNPA	6539
157	Design of cementitious shotcrete mix through laboratory studies for controlling seepage through the upstream face of Dudhganga dam, Maharashtra	6540
158	Analysis and interpretation of dam instrumentation data for the period January 2023 to December 2024 for the spillway block 40, Polavaram, Andhra Pradesh.	6541
159	Analysis and interpretation of dam instrumentation data for the period January 2023 to December 2024 for the spillway block 26, Polavaram, Andhra Pradesh.	6542
160	Field data collection and mathematical model studies for determining dumping locations of dredged materials from the various major creeks along the Maharashtra coast	6543
161	Design, fabrication and installation of Automatic Tide Generation (ATG) system of the physical model of Tapi river at GERI, Gotri, Vadodara	6544
162	Mathematical model studies for the wave propagation and littoral drift for design of coastal protection works at seven locations in Raigad district, Maharashtra	6545
163	Site inspection report to suggest remedial river training measures to the guide/afflux bunds of Kosi Mahasetu across river Kosi, Nirmali, Bihar for the pre-flood of year 2026	6546
